

KUALA LUMPUR RENTAL SHOP REPORT

A full breakdown of 14 commercial units for rent — photos, prices, size, price per square foot, location and agent contact context.

LISTINGS	PRICE RANGE	PRICE PER SQ FT RANGE	SIZE RANGE
14	RM 1,300 – RM 180,000	RM 1.50 – RM 30.00	800 – 24,000 sq ft

The single most important number: price per square foot

The monthly rent on its own can fool you. A RM 180,000 unit is not automatically a bad deal and a RM 1,300 unit is not automatically a good one — they are just different sizes. **Price per square foot (psf) is what lets you compare them fairly.** Across these 14 listings the psf spread is enormous: RM 1.50 in Kepong versus RM 30.00 at Four Seasons Place. That is a **20× difference** for the same one square foot of floor. Everything else in this report is built around that number.

KEY TAKEAWAYS AT A GLANCE

Cheapest rent overall: #13 Pandan Jaya — RM 1,300/mo for 800 sq ft.

Best value per sq ft: #12 Desa Jaya Kepong — RM 1.50 psf, renovated, 3 min to MRT and KTM.

Best value inside the city centre: #9 Jalan Ipoh / TRX view — RM 3.50 psf for 7,653 sq ft.

Most expensive per sq ft: #2 Shoppes @ Four Seasons — RM 30.00 psf, about 20× the cheapest.

Biggest total bill: #5 TRX Pavilion — RM 180,000/mo for 24,000 sq ft.

Ready to trade with least fit-out: #7 rooftop bar with Twin Towers view, and #1 fitted pilates studio.

Check this before you sign: #3 shows 12,000 sq ft on its billboard but 10,000 sq ft in the listing data.

Two very different markets in one shortlist

Your 14 listings actually split into two groups that should not be judged by the same standard.

GROUP A — City centre (listings 1–9)	GROUP B — Suburban shop lots (listings 10–14)
KLCC, Bukit Bintang, TRX and Jalan Ampang. Rent runs from RM 21,000 to RM 180,000 a month and psf from RM 3.50 to RM 30.00. You are paying for footfall, prestige addresses and rail access — most are 4 minutes from an LRT or MRT station. Several are bare shell, so add a fit-out budget. Best for retail, F&B, flagship showrooms and wellness studios.	Kepong, Setapak, Pandan Jaya, Bandar Menjalara and Jalan Raja Laut. Rent runs from RM 1,300 to RM 26,000 a month and psf from RM 1.50 to RM 6.47. Mostly older shop-office rows, many already partitioned and usable on day one. Best for back-office work, services, clinics, tuition centres and neighbourhood trade.

LOCATION	Jalan Tun Razak, TRX, Pavilion, KL City Centre	SIZE	14,500 sq ft

FEATURES	Splittable: 2,000 – 12,300 sqft	LISTED BY	Elaine Chong (Elle)

What to know: FLEXIBLE SIZE. The advertiser will split from 2,000 sqft up to 12,300 sqft, so the RM 47,160 figure is only for the 8,575 sqft configuration. Good psf for a Bukit Bintang address.

9. LRT-linked unit with balcony (KLCC & TRX view)

RM 26,800 /mo

LOCATION	Jalan Ipoh / Sentul / Jalan Tun Razak, KL City Centre	SIZE	7,653 sq ft

SOURCE	mudah.my	DATE POSTED	Posted 4 days ago

What to know: CHEAPEST UNIT ON THE LIST at RM 1,300/month. Move-in condition and negotiable. Ideal for a small office or startup, not for retail — it is on the second floor with no street frontage.

14. Taman Permata Corner Shop-Office

RM 26,000 /mo

What to know: EXPENSIVE FOR SETAPAK. RM 6.47 psf is close to TRX and KLCC pricing (RM 7.00–7.50) but in a much older suburban row of shops. The listing gives almost no detail — verify hard.

Before you contact any agent

These listings are advertisements, not contracts. The numbers on the card are the starting point of a negotiation, not the final cost. Here is what actually decides your monthly outlay:

- 1 Ask for the real total move-in cost**
Only listing #10 published it (RM 55,000 upfront on RM 11,000 rent). Malaysian commercial leases typically ask for 2–3 months security deposit, half a month to 1 month utility deposit, 1 month advance rent, plus stamp duty and agent fees. Assume 4–6 months of rent in cash before you get the keys.
- 2 Confirm the lettable area in writing**
Listing #3 advertises 12,000 sq ft on its billboard but records 10,000 sq ft in the listing data. A 2,000 sq ft gap at RM 7.00 psf is RM 14,000 a month. Always get the area written into the tenancy agreement.
- 3 Separate 'bare shell' from 'fitted'**
Listings #5, #6 and #9 are raw concrete. Listings #1, #7, #12 and #13 already have usable fit-out. A cheap psf on a bare unit can end up costing more than a higher psf on a fitted one once you add renovation, air-conditioning, electrical and flooring.
- 4 Check the permitted use before you fall in love with a unit**
F&B needs grease traps, exhaust routing and a DBKL licence. A gym needs floor loading capacity. A second-floor office lot like #13 cannot become a retail shop. Confirm the building allows your business type.
- 5 Treat the rent as negotiable**
Listings #10 and #13 state this openly. Units sitting on the market for three weeks or more — #4, #5, #6 and #7 — usually have the most room to move on price.
- 6 Verify every agent's REN or PEA number**
Some listings here are from licensed firms (E-Trend Realty, IQI Realty, kimproperties), others from private advertisers. Licensed agents carry a registration number; private advertisers do not. Deal accordingly.
